Select Automatic mode

- universal – for freshwater and marine tanks, suitable for different aquarium lengths, including custom ones
- easy to install – the kit includes the components necessary to mount the lamp on the edges of the aquarium and to suspend it above
- supports the proper development of plants and animals – allows the aquarium to reproduce a cycle that mimics the **natural light changes throughout the day**
- quiet operation thanks to passive cooling technology
- available in **3 sizes**: 30 cm, 60 cm and 90 cm
- efficient – high-efficiency LEDs >130 lm/W
- safe – powered by a safe voltage of 24 V that poses no threat to human life and health. It also remains safe in the case of short-term immersion in water (IPX7 protection rating)
- modern design – flat luminaire made of brushed aluminium gives the lamp an original, minimalist style
